

## A checklist for your first two weeks of RC!

- Create a recurse.com account and fill out your profile on the directory
- Log in to Zulip and introduce yourself in the welcome stream
- Sign up for coffee chats
- Get settled in your physical environment
- Make a desk on Virtual RC if you're attending an online batch, or pick a cubby if you're attending in-person
- Choose an accountability mechanism, whether that's in-person or Zulip checkins, blogging, or something else
- Attend presentations
- Check the calendar and RSVP to events you're excited about
- If there's an event you wish existed but doesn't, create it!
- Set your intentions/goals for the retreat and plan what you'd like to work on
- Share what you're planning on working on widely and often to find others who are interested in similar things
